Course Descriptions None 2015-2016

Course Title	Second -year Project I
Course Code	EBS2002
ECTS Credits	4,0
Assessment	Whole/Half Grades

Period

Period	Start	End	Mon	Tue	Wed	Thu	Fri
3	11-1-2016	22-1-2016	-				

Level	Intermediate/Advanced
Coordinator	Ton Storcken For more information:t.storcken@maastrichtuniversity.nl
Language of instruction	English
Goals	Students learn how to apply and combine theories and techniques to a complex problem. They learn how to work on such problems in teams, how to summarize the results in a report and a presentation.
Description	Students work in teams on two problems each taking one week. In the first week this problem relates to the courses Optimization and Game Theory and Economics. In the second week it is related to Programming and therewith involves the writing of a program in C++. At the end of each week they have to hand-in a report on their solution and at the end of the second week they have to present some of their results in a seminar.
Literature	Articles.
Prerequisites	First half of second year Econometrics and Operations Research, in particular ability to program in C++.
Teaching methods	Presentation / Papers / Groupwork
Assessment methods	Final Paper
Evaluation in previous academic year	For the complete evaluation of this course please click http://iwio-sbe.maastrichtuniversity.nl/rapporten.asp?referrer=codeUM
