Level Intermediate

Coordinator Erik de Regt For more information: [e.deregt@maastrichtuniversity.nl](mailto:e.deregt@maastrichtuniversity.nl)

Language of instruction English

Goals Knowledge of standard labour economic theories  
 - Understanding of European labour markets and their interaction with welfare states  
 - Being able to analyse and report on labour market developments  
 - Being able to analyse and report on the effects of labour market policies

Description The introduction of the EMU, the structure of labour markets is of crucial importance for the economic performance of the European countries. This course provides an introduction in the economic analysis of labour markets characterised by imperfect competition. Labour has a number of special features that other goods often do not have. For example, there is strong personal involvement, often in long-term relationships, and human capital cannot easily be transferred. Moreover, the wage is not only the price of labour: it is also the most important source of income. Therefore, labour markets are often characterised by a large number of institutions like social norms, unions, government regulation and welfare states. Using the European experience as our background, the interaction between the welfare state and the labour market, will be an important theme during the course.

Literature Boeri, T. and J. van Ours (2008), The Economics of Imperfect Labor Markets, Princeton University Press. Supplemented with some additional material on European labour markets and welfare states. Details will be announced in the course manual.

Prerequisites Intermediate micro- and macroeconomic courses (for example, the second-year IES courses EBC2010, Microeconomics: Choices, Markets and Welfare and EBC2040, Macroeconomics and Economic Policy). Typical intermediate books are Varian H.R. (2010), Intermediate Microeconomics, A Modern Approach, 8th edition, Norton, New York. Burda M. and Ch. Wyplosz (2009), Macroeconomics, A European Text, 5th edition, Oxford University Press, Oxford. Exchange students should be majoring in economics, not in business. An advanced level of English

Teaching methods PBL / Presentation / Lecture / Groupwork

Assessment methods Participation / Written Exam
