

Course Descriptions Bachelor 2015-2016

Course Title Econometrics and OR Modelling

Course Code EBC2151

ECTS Credits 6,5

Assessment Whole/Half Grades

Period	Start	End	Mon	Tue	Wed	Thu	Fri
5	11-4-2016	3-6-2016	-				

Level Advanced

Coordinator Jean-Pierre Urbain For more information: j.urbain@maastrichtuniversity.nl

Language of instruction English

Goals The students learn how to extend their existing theoretical and methodological knowledge in mathematical economics, operations research econometrics or actuarial science by working on a research case/project that will form the basis of the bachelor thesis.

Description The students will extend and apply the methods learned and will have the opportunity to specialize to a certain extent in one of the main areas of the programme. Various problems from these fields are proposed to the students that will work on a research project (literature overview, empirical or theoretical analysis in economics, econometrics, OR, an actuarial science model building and solving, optimisation,...) under the supervision of a staff member.

Literature

Prerequisites

Teaching methods PBL / Presentation

Assessment methods Final Paper / Participation
