Goals Development of Econometric and OR methods.

Description Students will be trained to use software R or to use a software for modelling and solving (integer) linear programs. Applications using software R will be based on Bayesian inference of a set of standard econometric models. Special attention will be given to the development of computational algorithms such as Markov chain Monte Carlo.

Literature Lecture notes.

Prerequisites Econometric Methods.

Teaching methods PBL / Lecture / Groupwork

Assessment methods Final Paper / Participation / Written Exam
