 Language of instruction English  
 Goals Solid understanding of the audit process;  
 Basic knowledge of the academic literature on auditing;  
 Obtain problem solving skills in auditing settings and develop experience in using and interpreting data in common decision contexts.

Description Graduates have academic, evidence-based knowledge and understanding of theories, methods and tools in business/economics.  
 Graduates can apply their knowledge and understanding to identify and solve real life business/economic problems. This includes demonstrating analytical skills and a problem-solving attitude.  
 Graduates can inform judgments on theoretical and practical business/economic issues.  
 Graduates can find, read and understand relevant research.  
 Graduates have largely self-directed learning skills and the ability to regulate their own learning process.  
 The course is aimed at giving students a solid introduction to auditing. The evolution of the auditing function, the role of auditing in a modern economy, the audit process of auditing, as well as the most elementary auditing techniques are discussed.  
 The course is linked to audit practice by means of case-studies and a workshop in collaboration with a large audit firm.
