Goals	Having profound knowledge and understanding of theories, methods, and tools in organizational learning. Being able to diagnose and analyse issues in organizational learning. Being able to use evidence-based organizational learning insights to make recommendations for the organizational practices of management and design. Being able to reflect on own experiences during the course.
Description	Organizational learning refers to processes involved in the discovery and application of new knowledge in organizations and to the changes in organizational repertoires, through which internal processes and external adaptation are improved. This course addresses theory and research on the complex, multi-faceted, and multi-level phenomenon that is effective organizational learning, in order to improve practical insights for consultants and managers to safeguard and improve the long-term adaptiveness of their organization. As such, this course addresses how different elements that make up an organization (structure, culture, teams, leaders, and individuals) all form factors that contribute to developing and managing a learning organization.
Literature	To be announced on Eleum.
Prerequisites	Courses and workload are very demanding for all IB master courses. Exchange students need to have obtained a Bachelor degree in business. Advanced level of English.
