Coordinator Lenard Lieb For more information: l.lieb@maastrichtuniversity.nl

Language of instruction English

Goals understand the function of the financial system
understand development on financial markets.

Description Financial economics focuses on financial markets in an economy and in particular on understanding financial assets, yields and financial crises. In addition, banking and banking regulation will be discussed. In the course topics from macroeconomics, finance and financial econometrics pass in revue and this course prepares students for a master program in financial economics.

Literature Textbook and articles I

Prerequisites An intermediate level of economics is recommended. Coverage of intermediate macroeconomics, exchange rates and microeconomics. In addition, basic econometrics courses (time series analyses and stationarity problems) and basic finance courses are required.
