An explicit and central social/environmental mission, innovation, creativity and a strong market orientation are the distinguishing features of social and environmental entrepreneurship. Social and environmental entrepreneurs are committed to furthering a social and/or environmental mission, and rank social, environmental or cultural impact on a par with, or above, profit. At the intersection of business, government and not-for-profit organisations, these social and environmental entrepreneurs are now visible and having an impact on a global scale.</p>

Prerequisites	<p>This course is part of the Entrepreneurship Minor. The courses of the Entrepreneurship Minor (see also http://maastrichtentrepreneurship.nl/minor.html) draw on the scholarly and practical entrepreneurship literature. They do NOT expect that you have already developed an understanding of the functional domains of business administration or small business management (e.g. strategy, marketing, accounting, HRM, finance, operations). We encourage you to take the two introductory courses of the minor (EBC2171, EBC2172) BEFORE taking the other courses of the Minor.
