Coordinator Robert Suurmond For more information: r.suurmond@maastrichtuniversity.nl

Language of instruction English

Goals

- * Students obtain basic insight in operations and Supply Chain Management
- * Students understand relations between OSCM with other functions of the organization
- * Students apply operations and supply chain insights in an analysis of a real company
- * Students practice and receive constructive feedback about their role as discussion leader and their individual paper.
- * Students apply basic project management skills

Description This course is the introduction course for the business specialisation in supply chain management. Students will require a solid foundations in the topics and tools of both operations and supply chain management. While a strong internal operations function is vital to a firm's survival, it is not sufficient. Firms must also understand how they link in with their supply chain partners. In this course, we will cover a wide range of topics such as supply chain strategy, forecasting, inventory management, purchasing, logistics, JIT/Lean, Quality and Capacity management.
