Goals
 Description Global Supply Chain Management provides a first introduction to the design, organisation, and optimisation of a firm's supply chain processes, from the procurement of raw materials via production and warehousing to distribution and transportation in an international context.

Tutorials evolve around student presentations and discussion of relevant literature and case studies. Normally, a subgroup of students will be responsible for an entire session, presenting a key summary of the required literature, as well as additional material, such as other academic articles, cases, and examples.

Literature Reader based on State-of-the-Art articles on Global Supply Chain Management

Prerequisites General insight and interest in business. This is one of the four courses in the supply chain management major.
