

Course Descriptions Master 2018-2019

Course Title Research Design and Methodology for a Thesis: Global Supply Chain Management and Change
 Course Code EBS4038
 ECTS Credits 4,0
 Assessment Whole/Half Grades

Period	Start	End	Mon	Tue	Wed	Thu	Fri
3	14-1-2019	25-1-2019					

Level Advanced

Coordinator Tjark Vredevelde, Nadine Kiratli For more information: t.vredevelde@maastrichtuniversity.nl; n.kiratli@maastrichtuniversity.nl

Language of instruction English

Goals The programme is completed by a Master Thesis Project in which you conduct an in-depth study of a supply chain related topic. It provides you with the opportunity to apply your knowledge and skills acquired during the programme to one specific supply chain problem.

Description In several sessions, students are guided towards a thesis proposal that offers a solid base to enter the thesis process. Finding a topic, formulating an interesting and workable problem statement, imposing a structure by formulating sub questions, reporting on a first scan of the literature, and finally developing initial research ideas are all covered in these sessions. The skills training is concluded by a session in which all participants give a presentation of their thesis proposal, receiving critical feedback from other students and the tutor.

Literature The literature will be announced later.

Prerequisites Students who wish to start their thesis must have followed at least two courses.
