 Goals Primary goal: You understand the virtues and characteristics of social and environmental entrepreneurship  
 Secondary goals: [1] You understand and are able to explain the subtle but sometimes substantial differences between social and traditional ventures. [2] You understand and are able to explain the challenges of pursuing opportunities in the social/environmental sphere.

Description Social and environmental entrepreneurship aims to combine social and/or environmental goals with financial sustainability. Social ventures such as Annie Connect or Onze Saar showcase that profit can be made while serving a social cause. Other social ventures such as the Aravind Eye Hospitals do not seek to generate profit. They want to maximize the social value that they create. Environmental ventures, such as Solar Century, Lemnis and E-Max, illustrate that profit can be made while serving an environmental cause. Other environmental ventures do deem the serving of an environmental cause as more important than generating (shareholders) profits.  
 This course explores the special features of social and environmental entrepreneurship (creating social or environmental value) in comparison to regular entrepreneurship (creating economic value). Attention is given to the variety of issues addressed by social entrepreneurs, how traditional business concepts such as performance and finance are translated in a social and/or environmental entrepreneurship setting as well as limitations of and problems encountered in social and environmental venturing.

Prerequisites The courses of the Entrepreneurship Minor (see also <http://maastrichtentrepreneurship.nl/minor.html>) draw on the scholarly entrepreneurship literature. They do NOT expect that you have already developed an understanding of the functional domains of business administration or small business management (e.g. strategy, marketing, accounting, HRM, finance, operations). We encourage you to take the two introductory courses of the minor (Birthing New Ventures and Mobilising Resources [EBC2145; EBC2146]) BEFORE taking the other courses of the Minor. As this minor is delivered in English, your command of the English language in speech and writing should be good enough to actively prepare for, participate in, and contribute to the classes

Teaching methods PBL / Presentation / Lecture / Assignment / Papers
