4	6-2-2017	7-4-2017	L	X/E		X/E											
Level	Introductory																
Coordinator	Erik de Regt For more information:e.deregt@maastrichtuniversity.nl																
Language of instruction	English																
Goals	<ul style="list-style-type: none"> -learn how to analyse the macroeconomic performance of a country -learn to understand how to interpret and understand various types of macro economic policy -understand current discussions about fiscal and monetary policy - training in presentation- and team-skills 																
Description	The course provides an introduction into modern macroeconomic theory and economic policy. This gives basic tools needed to analyse macroeconomic developments. The course covers short-run fluctuations, medium-run equilibrium, and also long-run growth. It discusses macroeconomic policy in a European context, but in a globalizing world. The course includes training in presentation skills, where small teams present and discuss macroeconomic data for various countries.																
Literature	Blanchard O., A. Amighini and F. Giavazzi (2013), Macroeconomics, A European Perspective, 2nd edition, Pearson																
Prerequisites	Coverage of basic mathematics, in particular algebra. An advanced level of English																
Teaching methods	PBL / Presentation / Lecture / Groupwork
