Goals	To introduce students to the management challenges faced by family businesses; To discuss theoretical frameworks that will help students in analysing management problems in family firms. To allow students to apply the knowledge gathered to case studies as well as to a real-life family firms.																
Description	This course introduces students to the unique management issues facing the organisational form of family firms. The course addresses the importance and distinctive nature of family businesses, and familiarizes students with central theories (agency theory, stewardship theory, socio-emotional wealth theory) and topics (e.g., succession, governance, entrepreneurship) covered in the academic family business literature. The course uses a combination of topical readings, presentations, case discussions, and assignments to explore and illustrate family business issues.																
Literature	Academic journal articles; Case studies																
Prerequisites	This Master-level course familiarizes students with the specifics of the organisational form of family businesses, and requires a general understanding of business concepts and management theories. An advanced level of English
