Goals	This Leadership course has the following goals: 1. To introduce students to the complexity of today's leadership challenges. 2. To familiarise students with theories and empirical research on leadership. 3. To enable students to handle the diagnosis and analysis of leadership issues and to use this knowledge for the suggestion, comparison and evaluation of problem solutions. 4. To develop students' reflective awareness with respect to their own values, assumptions, expectations and beliefs regarding leadership and to increase their ability to analyse and transform their own leadership behaviour.
Description	This course will introduce you to the world of leadership in different ways. You will explore the topic through the academic lens by studying past and current theoretical perspectives and empirical research.
