

Course Descriptions None 2018-2019

Course Title	Time Series Modelling							
Course Code	EBC2086							
ECTS Credits	6,5							
Assessment	Whole/Half Grades							
Period	Period	Start	End	Mon	Tue	Wed	Thu	Fri
	1	3-9-2018	26-10-2018		X		X	
Level	Intermediate							
Coordinator	Alain Hecq For more information:a.hecq@maastrichtuniversity.nl							
Language of instruction	English							
Goals	Enable economic students to perform an empirical analysis of time series using the correct tools. Introduction to quantitative methods and econometrics.							
Description	The objective of this course is to give students in the Bachelors program of Economics an introduction to modelling univariate and multivariate time series in economics. The topics covered will include modelling non-stationary time series, Granger causality, co-integration, ARIMA, seasonality, ARCH, Unit roots.							
Literature	Diebold, F. (2017), Econometrics (available online). Diebold, F. (2017), Forecasting (available online).							
Prerequisites	The Quantitative Methods 3 course for EC, or one of the courses Empirical Econometrics for Business, Empirical Econometrics or Forecasting for international business. Assuming a basic understanding of multiple regression analysis (such as with an introductory course on econometric/quantitative methods), this accessible introduction to time series analysis shows how to develop models capable of forecasting, interpreting and testing hypothesis concerning economic data using well established as well as modern techniques. Based on real-world data and with the help of interactive software such as Eviews we will study and apply key concepts such as ARIMA, unit roots, causality, cointegration, deterministic and stochastic, trends, volatility, outliers, structural breaks, seasonality, vector autoregressive models. an advanced level of English.							
Teaching methods	PBL / Presentation / Lecture / Assignment / Groupwork							
Assessment methods	Final Paper / Participation / Oral Exam							
Evaluation in previous academic year	For the complete evaluation of this course please click http://iwio-sbe.maastrichtuniversity.nl/rapporten.asp?referrer=codeUM							
This course belongs to the following programme / specialisation	Bachelor Economics and Business Economics - Economics		QE Electives					
	Bachelor Economics and Business Economics - Emerging Markets		QE Electives					
	Bachelor Economics and Business Economics - Economics and Management of Information		QE Electives					
	Bachelor Economics and Business Economics - International Business Economics		QE Electives					
	Bachelor International Business		QE electives					
	SBE Exchange Bachelor		Bachelor Exchange Courses					
	SBE Exchange Master		Bachelor Exchange Courses					
	SBE Non Degree Courses		Bachelor Courses
