Assessment	Whole/Half Grades

Period

Period	Start	End	Mon	Tue	Wed	Thu	Fri
2	25-10-2021	10-12-2021		X		X	

Level	Advanced
Coordinator	Burak Can For more information:b.can@maastrichtuniversity.nl
Language of instruction	English
Goals	After successfully finishing this course, students will be able to: * Understand the ethical, privacy and security related issues concerning digital technologies * Gain an overall awareness of responsibility in data sciences * Implement responsible digital projects
Description	The concept of responsible data management is based on understanding the individual and societal collective duty to prioritize and respond to the ethical, legal and social challenges coming from the "use of data" by humans (or machines) under different "digitalization scenarios". The key elements of the responsible data use - data privacy, data protection and data ethics - are discussed in detail. Students are provided various ethical dilemmas and introduced with various privacy and security issues that arise with digital technologies.
