Goals The goal of this course is:  
\* to support the development of academic competences and to encourage reflection on this development and  
\* to prepare for the labour market after graduation.

Description Through the Individual competence development trajectory students are supported in the development of academic competencies as described in the profile of the programme. Depending on the competencies a student has identified for further development, a set of sessions on study and job-related skills can be chosen. The course offers a broad portfolio of competencies for the job market. This includes activities ranging from applied skills (e.g. mathematics or statistical software) to networking and job market skills (e.g. interview and assessment preparation).
