Goals	get reacquainted with basic MS-Excel functions and apply them to every day business problems - learn how to use the advanced functions of MS-Excel to solve every day business problems
Description	In this skills training the application of spreadsheets models on examples of business problems will be the main issue. Spreadsheets programs provide end-users with an easy to use facility for solving all kinds of problems in the business domain, e.g. accounting tasks, production planning and so forth. The focus in this skills training will be on using the 'built-in' functionality of spread-sheet packages to solve every day business problems. Note: information about examination methods: - Assignments during this skill - Final assignment at the end of the course
Literature	compendium
Prerequisites	This course is in transition for the bachelor Fiscal Economics. See the Bachelor Education and Examination Regulations for more information. The following rule applies to bachelor Fiscal Economics students. TRANSITIONAL REGULATION (EBS2039): The bachelor Fiscal Economics has been discontinued. There will be repeat education for year 1 and year 2 courses up to and including academic year 2025-2026 and exam-only up to and including academic year 2026-2027. For year 3 courses there will be repeat education up to and including 2026-2027 and exam-only up to and including academic year 2027-2028. Whether a course is in transition, cancelled, or replaced may depend on the cohort you are in. Sometimes there are additional criteria.
