

## Course Descriptions None 2024-2025

Course Title	Global Transportation Management																																															
Course Code	EBC2065																																															
ECTS Credits	6,5																																															
Assessment	Whole/Half Grades																																															
Period	Period	Start	End	Mon	Tue	Wed	Thu	Fri																																								
	4	3-2-2025	30-3-2025	X			X																																									
Level	Intermediate																																															
Coordinator	Tom Schiefer For more information:t.schiefer@maastrichtuniversity.nl																																															
Language of instruction	English																																															
Goals	The course Global Transportation Management provides a detailed introduction into different transportation modes and their applicability in single – and multimodal contexts. The course stimulates critical thinking and own opinion formation. By encouraging students to actively shape form and content of multiple tutorial sessions in repeated facilitation settings, social skills, communication skills, character traits, attitudes complement the hard skills developed. The comparatively high proportion of exchange students contributes to the achievement of the aforementioned goals in an inherently international classroom setting.																																															
Description	The aim of this course is to examine the role of transportation in international business in detail. It is the objective to provide students you with a conceptual understanding of the conditions faced by transportation managers in an international environment. Topics include complexity of international shipments, economic and legal environment of ocean, air carriers, freight forwarding, carrier selection, contract logistics and export documentation. Furthermore, it covers - among others - the cost structure and documentation of shipments, conference system for shipping lines, international sourcing, service priorities, and future outlooks for transportation logistics.																																															
Literature	The literature assigned for this course draws from a variety of sources of stakeholders involved in global transportation management. The course is supplemented by a large selection of scientific articles of leading academic logistics and supply chain journals. Cases are used to illustrate the different concepts.																																															
Prerequisites	<p>This course has been cancelled for the pre-master International Business specialisation Supply Chain Management. See the Bachelor Education and Examination Regulations for more information.</p> <p>The following rule applies to pre-master students who started the programme prior to academic year 2023-2024. Specifically: * Pre-master International Business specialisation Supply Chain Management TRANSITIONAL REGULATION (EBC2065): Students who have not been able to successfully complete "Global Transportation Management" (EBC2065) before 2024-2025, do not comply with the requirement to successfully complete the pre-master in two academic years. Therefore, no additional examination options will be available.</p> <p><b>PREREQUISITES:</b> * At least one course in Logistics at Introductory level (level comparable to: The Management of Business Logistics: a Supply Chain Perspective, by J.J. Coyle, E.J. Bardi and C.J Langley (2003)) * An advanced level of English.</p>
