

Course Descriptions None 2024-2025

Course Title Empirical Methods in Economics
 Course Code EBC4233
 ECTS Credits 5,0
 Assessment Whole/Half Grades

Period	Start	End	Mon	Tue	Wed	Thu	Fri
1	2-9-2024	20-10-2024		X			X

Level Advanced
 Coordinator Bart Golsteyn For more information:b.golsteyn@maastrichtuniversity.nl
 Language of instruction English

Goals
 * A critical attitude towards the use of data and the empirical methods to analyse real world events
 * How empirical observations can be interpreted and evaluated from an economic point of view
 * Experience in working with Stata

Description
 People who retire earlier, die earlier. Would you conclude from this evidence that it is better not to retire early? This course offers you (1) tools with which you can take a critical look at such claims, (2) tools with which you can investigate data yourself. In case of this example, causality might run in the opposite direction: people who are healthier work longer than those who are less healthy. So decreasing earlier might not be caused by earlier retirement but be due to worse health of early retirees. To estimate whether early retirement really increases health risks we need a better research strategy. This course offers such methods and tools along with assignments to see how it works in practice. It considers both cross-section, time series and panel methods. The course develops an understanding of the main tools with which empirical claims can be established or refuted. The philosophy is to explain the empirical strategies in an intuitive way. We focus on analysing economic phenomena, using applied papers as examples.

Literature
 Chapters from:
 * Stock, J. & Watson, M. (2019), Introduction to Econometrics, Fourth Edition, Pearson.
 * Söderbom, M. and F. Teal (2015), Empirical Development Economics, Routledge, London/New York.
 A reader with articles and background material.

Prerequisites
 This course is in transition for the master Economics.
 See the Master Education and Examination Regulations for more information.
 The following rule applies to master Economics students who started the programme prior to academic year 2023/24.
 TRANSITIONAL REGULATION (EBC4233):
 Students can continue to register for EBC4233

PREREQUISITES:
 * Basic econometrics, some experience with statistical software such as Stata.
 * An advanced level of English.

Keywords
 Teaching methods PBL / Lecture / Assignment
 Assessment methods Participation / Written Exam / Assignment

Evaluation in previous academic year
