Goals	The goal of this course is: * to support the development of academic competences and to encourage reflection on this development and * to prepare for the labour market after graduation.																								
Description	Through the Individual competence development trajectory students are supported in the development of academic competencies as described in the profile of the programme. Depending on the competencies a student has identified for further development, a set of sessions on study and job-related skills can be chosen. The course offers a broad portfolio of competencies for the job market. This includes activities ranging from applied skills (e.g. mathematics or statistical software) to networking and job market skills (e.g. interview and assessment preparation).																								
Literature																									
Prerequisites	This course is in transition. See the Master Education and Examination Regulations for more information.  The following rule applies to master Economics students who started the programme prior to academic year 2023-2024. TRANSITIONAL REGULATION (EBS4034): In 2024-2025 students are allowed to repeat the examination and resit.
