Level	no level
Coordinator	Juan Francisco Palacios Temprano For more information:juan.palacios@maastrichtuniversity.nl
Language of instruction	English
Goals	This course on climate finance provides students with a deep understanding of the impact of climate and biodiversity risks on financial markets, and the role of financial instruments in addressing the challenges of climate change and nature loss.
Description	Starting with an introduction to the science of climate change and the associated political/regulatory ecosystem, the course explores the relevance of climate finance in addressing climate challenges and mitigating risks associated with climate change and biodiversity lost. In particular, it delves into funding mechanisms, price discovery (asset pricing), investment strategies (asset management), risk management, and disclosure.
Literature	Papers
Prerequisites	Intermediate knowledge in finance is required.
Keywords	
Teaching methods	PBL / Presentation / Lecture / Assignment / Papers / Groupwork / Skills
Assessment methods	Attendance / Participation / Assignment / Computer test / Presentation / Take home exam
