Goals The primary objective of this skill is to let participating students get into touch with foreign financial markets and practices through a short international study tour. Description This course provides a useful background for second and third year Bachelor students who are interested in topics about international and cultural differences in the global financial environment. The location of the tour will vary from year to year. Participants will write a paper (either in a group or alone) concerning their key findings. The SCOPE Student Association is involved in organizing the trip.
