Goals	The objective of this practical course is to put you in the position to identify and analyse a financial problem on your own and to apply for that purpose the tools, techniques and concepts you have learned in the previous courses. The main goal of this skill is to develop a thesis proposal that serves as a blueprint to write the master-thesis. After the skills you should be able to finalize and submit your thesis proposal and to continue working on your master-thesis with the limited guidance of a supervisor.
