Goals	The BSc thesis is an individual assignment and serves as a concluding assignment of your Bachelor study. The aim of the BSc Thesis is to demonstrate your mastery of domain of study in an assignment that integrates your acquired knowledge and skills. The BSc thesis is an essay of 4500-5000 words (excl. appendices) based on scientific articles and your research.
Description	The bachelor thesis course provides lectures about different research-related topics. In addition, you have regular meetings with your supervisor to work on your custom-made Bachelor thesis. Finally, you get to present your findings in the symposium/workshop and submit your thesis. During the semester you have frequently contact with your assigned supervisor. The topic for the bachelor thesis is custom made and determined together with the supervisor. At the end of period 2/5 students will participate in the marble symposium.
Literature	Each department has formulated obligatory courses for the marble project, which fall into the regular major/specialization, see marble-sbe.info. Furthermore, students have to attend the marble research course (EBC2152) as far as this is possible in the program. This course supports you in your thesis writing, developing general research skills and critical thinking.
Prerequisites	Students have to be selected for the MaRBLe project.
