

Course Descriptions None 2026-2027

Course Title Problem-based Learning and Academic Skills
 Course Code SSP1022
 ECTS Credits 1,0
 Assessment Pass / Fail

Period	Start	End	Mon	Tue	Wed	Thu	Fri
1	31-8-2026	16-10-2026					
2	26-10-2026	11-12-2026					

Level Introductory
 Coordinator Annemarie van Zeijl-Rozema For more information:a.vanzeijl@maastrichtuniversity.nl
 Language of instruction English

Goals

- * Students discuss team roles and team performance in group work
- * Students recognise their own and others' cultural standpoints
- * Students argue effectively and keep in mind rules on academic writing and debate
- * Students direct their learning process, in a Problem-Based Learning setting

Description Problem-based Learning and Academic Skills is a skills course that complements a number of other courses offered in the Master Programme on Sustainability Science, Policy and Society. Although SSPS1022 is a "light" course, it plays a central role in the master's programme. Students of Sustainability Science, Policy and Society are expected to analytically formulate actionable solutions to the sustainability challenges of our time, and communicate these effectively to a wide audience. The writing skills sessions have been designed to support your critical evaluation of literature on Sustainable Development, and to prepare you for written assignments for instance in the course "Integrated sustainability project". The presentations skills sessions help you with your presentation in the skills course "Multi-criteria Analysis", and "Integrated sustainability project". Last but not least, Academic Skills and Competences is an essential preparation for the modules Thesis Research Proposal Seminar and Thesis Research and Writing and the master's thesis defense.
