

# Course Descriptions Master 2014-2015

Course Title Study Coaching Trajectory  
 Course Code EBC4099  
 ECTS Credits 4,0  
 Assessment None

Period	Start	End	Mon	Tue	Wed	Thu	Fri
1	1-9-2014	24-10-2014		X		X	
2	27-10-2014	19-12-2014		X		X	
4	2-2-2015	3-4-2015		X		X	
5	13-4-2015	5-6-2015	C				

Level Advanced  
 Coordinator Jeanette Hommes For more information: [j.hommes@maastrichtuniversity.nl](mailto:j.hommes@maastrichtuniversity.nl)  
 Language of instruction English

Goals Objectives  
 The goal of this trajectory is to support the development of academic competencies and encourages reflection on this development. As such, it leads specifically to the development of learning skills, self-regulation and self-management skills.

Didactical concept  
 The activities in the SCT follow a returning cycle of goal-setting, planning of activities and reflection on study-activities.  
 Goal setting: based on a self-assessment and an identification of the competencies that wants to be developed, the student develops a personal development plan (PDP)  
 Planning: based on the goals the student makes up a planning of study-activities and possible resources.  
 Reflection: The student describes the influence of the activities on the development of the competencies. The acquired or developed competencies are proven. All these elements are part of an individual eportfolio.

The coaches are senior staff members.

Assessment: The portfolio is assessed by a team of assessors (general criterion: is competence development shown? and are students able to reflect on their development). This team of assessors includes at least one member of the professional field.

Description Content  
 Through the Study Coaching Trajectory students are supported in the development of academic competencies as described in the profile of the programme.  
 Depending on the competencies a student has taken from his/her prior education, his/her personal situation and the educational activities that are offered, students design a personal development and activity plan.  
 This means that this trajectory focuses on 1. questioning one's own and other's ideas, and 2. giving and receiving feedback in a constructive manner. To reach this goal, the trajectory consists of three levels. First, students design a personal development and activity plan. Then, the SCT offers a development structure in which students obtain insights in their own and other's mental models. Furthermore, a theoretical layer offers students the cognitive understanding of challenging mental models.  
 The SCT-coaches support students in their plans and encourages critical reflection; in other words, they scaffold the self-regulation of the students.

Literature No specific handbook. Specific articles when necessary

Prerequisites No specific prerequisites required

Teaching methods Assignment / Groupwork

Assessment methods Final Paper / Oral Exam
