

## Course Descriptions Exchange 2019-2020

Course Title Understanding and Implementing Empirical Methods  
 Course Code EBC4240  
 ECTS Credits 5,0  
 Assessment Whole/Half Grades

Period	Start	End	Mon	Tue	Wed	Thu	Fri
5	14-4-2020	5-6-2020	X		X		

Level Advanced

Coordinator Thomas Dohmen For more information: [t.dohmen@maastrichtuniversity.nl](mailto:t.dohmen@maastrichtuniversity.nl)

Language of instruction English

Goals The course aims at providing students an understanding of how to design, implement and interpret empirical research in economics. Students will gain knowledge in measuring relevant economic concepts and in identifying causality in economics. Students will learn about available statistical tools and their main differences, so that they are able to judge the internal validity of empirical studies.

Description The course provides an overview of methodological and practical issues that arise in empirical economics when (i) measuring concepts in the area of learning and work and (ii) estimating causal relationships. The course covers statistical tools to estimate causal relationships in economics using non-experimental (observable) data and psychometric tools for using test data. We review advantages and pitfalls of various identification strategies, and discuss data requirements. In addition to discussing implementation issues, the course puts particular emphasis on how to justify the technical assumptions in real-life studies. Examples from the economics of education and labour economics will be discussed. At the end of the course, students should be able to judge which methods are most appropriate in different contexts and circumstances and whether the underlying assumptions are fulfilled. Students will be able to assess the internal validity of empirical studies and make statements with respect to their reliability.

Literature

Prerequisites Empirical methods in Economics (EBC4233) or equivalent.

Keywords

Teaching methods PBL / Presentation / Lecture

Assessment methods Final Paper / Participation
