5	11-4-2022	3-6-2022		X			X										
Level	Introductory																
Coordinator	Steffen Kuenn For more information:s.kuenn@maastrichtuniversity.nl																
Language of instruction	English																
Goals	<ul style="list-style-type: none"> * Applying economic theory to social phenomena, * Developing skills in assessing the validity of claims based on empirical research. 																
Description	<p>Marriage, social relations, crime, family life and religion are all important social phenomena. The behaviour of people in these social contexts has major consequences for society. These social phenomena were traditionally outside the scope of economists, but are increasingly entering their field of research. The course "Understanding Society" uses economic theories and empirical research to analyse these social phenomena. Students learn to understand and analyse a wide range of social phenomena from an economic point of view and to assess the validity of claims based on empirical research.</p>																
Literature	Several empirical and theoretical articles																
Prerequisites	<p>TRANSITIONAL REGULATION (EBC2029):</p> <ul style="list-style-type: none"> * Students who started Economics and Business Economics in or prior to September 2019, with specialisation Economics, who have participated in, but not successfully completed, Understanding Society (EBC2029) as a compulsory course in or prior to August 2021, can follow education and/or use the exam only option in the academic year 2021/22, or replace with substitute course Labour Economics (EBC2173) * Students who started Economics and Business Economics in or prior to September 2019, with specialisation "Economics and Management of Information", "Emerging Markets", or "International Business Economics", who have participated in, but not successfully completed, Understanding Society (EBC2029) as elective or core course in or prior to August 2021, can use the exam only option in the academic year 2021/22. <p>PREREQUISITES: An advanced level of English, introductory level of statistics.</p>
