

Course Title	Research Strategy							
Course Code	EBC4125							
ECTS Credits	6,5							
Assessment	Whole/Half Grades							
Period	Period	Start	End	Mon	Tue	Wed	Thu	Fri
	5	17-4-2023	9-6-2023	X			X	
Level	Advanced							
Coordinator	Lex Borghans For more information:lex.borghans@maastrichtuniversity.nl							
Language of instruction	English							
Goals	Students will learn to develop a research strategy to estimate causal relationships in economics. Students acquire an understanding of methods for identification and estimation as well as gain insights into practical issues that arise when developing a research strategy and working on a research proposal.							
Description	<p>PLEASE NOTE THAT THE INFORMATION ABOUT THE TEACHING AND ASSESSMENT METHOD(S) USED IN THIS COURSE IS WITH RESERVATION. A RE-EMERGENCE OF THE CORONAVIRUS AND NEW COUNTERMEASURES BY THE DUTCH GOVERNMENT MIGHT FORCE COORDINATORS TO CHANGE THE TEACHING AND ASSESSMENT METHODS USED. THE MOST UP-TO-DATE INFORMATION ABOUT THE TEACHING/ASSESSMENT METHOD(S) WILL BE AVAILABLE IN THE COURSE SYLLABUS.</p> <p>This course provides an overview of methodological and practical issues that arise in empirical economics when estimating causal relationships. The course focuses on identification and estimation methods. We review advantages and pitfalls of various identification strategies, and discuss data requirements and measurement problems associated with different research strategies. Since the aim is to sharpen students' intuition about the advantages and disadvantages of various research strategies in economics and to judge which methods are most appropriate in different contexts and circumstances, you have to present and discuss the vices and virtues of key papers, each of which relies on a particular research strategy.</p>							
Literature	Several academic articles.							
Prerequisites	Methodological background at Research MSc level.							
Teaching methods	PBL / Lecture / Assignment							
Assessment methods	Final Paper / Participation
