

Course Descriptions Exchange 2023-2024

Course Title Empirical Methods in Economics
 Course Code EBC4233
 ECTS Credits 5,0
 Assessment Whole/Half Grades

Period	Start	End	Mon	Tue	Wed	Thu	Fri
1	4-9-2023	20-10-2023		X			X

Level Advanced

Coordinator Bart Golsteyn For more information: b.golsteyn@maastrichtuniversity.nl

Language of instruction English

Goals
 * A critical attitude towards the use of data and the empirical methods to analyse real world events
 * How empirical observations can be interpreted and evaluated from an economic point of view
 * Experience in working with Stata

Description
 People who retire earlier, die earlier. Would you conclude from this evidence that it is better not to retire early? This course offers you (1) tools with which you can take a critical look at such claims, (2) tools with which you can investigate data yourself. In case of this example, causality might run in the opposite direction: people who are healthier work longer than those who are less healthy. So decreasing earlier might not be caused by earlier retirement but be due to worse health of early retirees. To estimate whether early retirement really increases health risks we need a better research strategy.
 This course offers such methods and tools along with assignments to see how it works in practice. It considers both cross-section, time series and panel methods. The course develops an understanding of the main tools with which empirical claims can be established or refuted. The philosophy is to explain the empirical strategies in an intuitive way. We focus on analysing economic phenomena, using applied papers as examples.

Literature
 Chapters from:
 * Stock, J. & Watson, M. (2019), Introduction to Econometrics, Fourth Edition, Pearson.
 * Söderbom, M. and F. Teal (2015), Empirical Development Economics, Routledge, London/New York.
 A reader with articles and background material.

Prerequisites
 This course is in transition.

The following rule applies to master Economics students who started the programme prior to academic year 2023/24.

TRANSITIONAL REGULATION (EBC4233):

Students register for EBC4233 in MSc Economics and Strategy in Emerging Markets (ESEM)

Use Ask SBE to register.

Education deadline: July 15, 2023

Exam deadline: October 1, 2023

Resit deadline: November 26, 2023

See the Transitional Regulations section in the Master Education and Examination Regulations for more information.

PREREQUISITES:

Basic econometrics, some experience with statistical software such as Stata. An advanced level of English.

Keywords

Teaching methods PBL / Lecture / Assignment

Assessment methods Participation / Written Exam / Assignment

Evaluation in previous academic year
